

ITT Enidine Inc. Statement on RoHS 3 Regulations

From the 22nd of July 2019, Directive 2015/863/EU (often called RoHS-3) has entered into force.

This updates the RoHS Directive 2011/65/EU (RoHS-2) by adding four substances to the list of six substances already existing.

These four are:

- Bis(2-ethylhexyl)phthalat (DEHP) (0,1 %)
- Butylbenzylphthalat (BBP) (0,1 %)
- Dibutylphthalat (DBP) (0,1 %)
- Diisobutylphthalat (DIBP) (0,1 %)

ITT Enidine, Inc has completed the analysis of our finished goods for compliance to this directive. We have concluded that the following products are compliant:

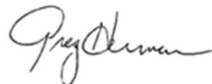

ECO 8, 10, 15, 25, 50, 100, 125 and 225

ECO OEM .25, .35, .5, 1.0 and 1.25

All Accessories for the above mentioned products

Further evaluation is ongoing for other product families not mentioned.

Sincerely,

Greg Herman
Director of Sales and Product Management
ITT Enidine, Inc.
